✉ samukele107@gmail.com

I am a self-taught software developer with a strong passion for coding and problem-solving. My love for technology started at a young age, and I have spent countless hours studying programming languages, practicing coding challenges, and building personal projects.

Although I don't have a traditional computer science degree, I have developed a deep understanding of programming concepts and best practices through my self-study and i have furthered my knowlegde and skills through bootcamps and have rewarded with certifications . I have experience in various programming languages such as Python and JavaScript, I am comfortable working with both front-end and back-end development frameworks.
